

Medicaid Patients

Your insurance only allows a set number of visits per year to any medical office. **You will be responsible for any denials due to exceeding the set number of visits, referring provider not matching the assigned referring provider, non-compliance of CUA physicians', or non-payment of services including Co-Pays.**

You may contact Medicaid or ask our staff if you need additional information.

I understand that I am liable for any amount owed to Clinical Urology Associates, P.C. for any of the denials (as deemed by Medicaid) and that denial of service may result from unpaid balances in by my insurance.
